WHAT DOES OUR COACHING LOOK LIKE?

MONTHLY COACHING SESSIONS

Every month there will be a pre-scheduled video conference meeting designed to take you through the five phases.

MONTHLY HOMEWORK ASSIGNMENTS

After each session you will be given assignments that will need to be completed prior to our next meeting. All homework will be designed to build your personal leadership and your organizational influence.

DAILY / WEEKLY ACCESS TO ASSISTANCE

You will have access to us via text and email in-between monthly video meetings. This will be for clarification, questions, and any assistance in achieving your goals.

FINANCIAL COMMITMENT

We have created a coaching system that will fit into nearly any budget. However, we have learned that you get out of something what you put into it. That simply means if you don't add value to what you choose to do, it won't add value to your life. So, don't let the investment scare you. Let the lack of investment scare you. Millionaires spend 5% of their annual personal income on coaching, while billionaires spend 10%.

Our desire is to see your life grow to the next level. The more you dream, believe, and grow the more you will be able to achieve. We don't want the investment to keep you from coaching. We can find ways to make it work. So, at the very least begin the conversation and let's see what we can help you accomplish.

they grow to the
